

Strictly Confidential: (For Internal and Restricted use only)
Senior Secondary School Term II Compartment Examination, 2022
Marking Scheme – SUBJECT NAME (SUBJECT CODE 048)
(PAPER CODE – 75)

General Instructions: -

1. You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2. **“Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its’ leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under IPC.”**
3. Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one’s own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. **However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and marks be awarded to them. In class-X, while evaluating two competency based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, marks should be awarded.**
4. The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
5. Evaluators will mark(✓) wherever answer is correct. For wrong answer ‘X’ be marked. Evaluators will not put right kind of mark while evaluating which gives an impression that answer is correct and no marks are awarded. **This is most common mistake which evaluators are committing.**
6. If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.
7. If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
8. If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out.
9. No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
10. A full scale of marks _____ (example **0-40 marks as given in Question Paper**) has to be used. Please do not hesitate to award full marks if the answer deserves it.
11. Every examiner has to necessarily do evaluation work for full working hours i.e. 8 hours every day and evaluate 30 answer books per day in main subjects and 35 answer books per day in other subjects (Details are given in Spot Guidelines). This is in view of the reduced syllabus and number of questions in question paper.
12. Ensure that you do not make the following common types of errors committed by the Examiner in the past:-
 - Leaving answer or part thereof unassessed in an answer book.
 - Giving more marks for an answer than assigned to it.
 - Wrong totalling of marks awarded on a reply.

- Wrong transfer of marks from the inside pages of the answer book to the title page.
 - Wrong question wise totalling on the title page.
 - Wrong totalling of marks of the two columns on the title page.
 - Wrong grand total.
 - Marks in words and figures not tallying.
 - Wrong transfer of marks from the answer book to online award list.
 - Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.)
 - Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
13. While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0) Marks.
14. Any unassessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
15. The Examiners should acquaint themselves with the guidelines given in the Guidelines for spot Evaluation before starting the actual evaluation.
16. Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totalled and written in figures and words.
17. The Board permits candidates to obtain photocopy of the Answer Book on request in an RTI application and also separately as a part of the re-evaluation process on payment of the processing charges.

General Instructions:

- a. The marking scheme carries only suggested value points for the answers.
- b. These are only Guideline and do not constitute the complete answer.
- c. The students can have their own expression and if the expression is correct, the marks be awarded accordingly.
- d. The candidates would be permitted to obtain a photocopy of the Answer book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners are once again reminded that they must ensure that evaluation that is carried out strictly as per value points for each answer as given in the marking Scheme.
- e. All the Head Examiners/Additional Head Examiners/Examiners are instructed that while evaluating the answer scripts, if the answer is found to be totally incorrect, (X) should be marking on the incorrect answer and awarded '0' marks.

MARKING SCHEME

Senior Secondary School –Term II Compartment Examination, 2022

PHYSICAL EDUCATION (Subject Code– 048)

[Paper Code –75]

Maximum Marks: 35

Q. No.	EXPECTED ANSWER / VALUE POINTS	Marks
1. Ans.	Enlist any four benefits of Pavanmuktasana. Benefits of Pavanmuktasana • Beneficial in curing Diabetes. • Tones the legs, arms and shoulder muscles, strengthens thigh muscles, back and abdominal muscles • Improves the blood circulation. • Improves digestion. • Helps in releasing the unwanted gas/wind accumulated at various parts around the abdomen thus relieving constipation and flatulence. • Joint pains are cured by doing this asana. • Strengthening muscles around the neck and shoulders will help in easing initial stages of spondylitis. • Removes excess fat around the lower abdomen, hips, chest and arms. (any 4 relevant points)	½ x4
	2	
2. Ans.	Suggest any four causes of disability. Causes of disability: - Genetic causes - Poverty - Mental health problems - Accidents - Infection from diseases - Malnutrition - Disturbances in the functioning of glands - Toxic materials like pesticides and insecticides - Nuclear accidents - Lack of Education - Wars - Medicines and vaccines - Dangerous working environment - Poor approach to health care (or any other 2 relevant points explained)	1+1
	2	
3. Ans.	Explain any two causes of ‘OCD’ Causes of OCD: • Genetics: Someone with a family history of OCD • Biological causes: neurotransmitter problem in the pathway of the brain • Trauma: prevalence of OCD symptoms after a stressful or traumatic incident • Infections: Children can develop OCD suddenly, often following a viral infection. • Environmental Factors: can be learned from watching family members or gradually learned over time. (or any other 2 relevant point)	1+1
	2	

4. Ans.	Elucidate any two effects of exercise on the cardio-respiratory system. Effects of exercise on the cardio-respiratory system: • Increased Size and Strength of Heart • Low Level of Accumulation of Lactic Acid • Decrease in Resting Heart Rate • Normal Blood Pressure • Increase in Stroke Volume and Cardiac Output • Increase in Capillaries Network • Respiratory Rate decreases • Tidal Volume Increases • Rate of Exchange of Gas Increases • Increased Residual Volume • Efficiency of Respiratory Muscles (any 2 points explained)	1+1 2										
5. Ans.	Differentiate between sprain and strain. (any two) <table><tr><th>Sprain</th><th>Strain</th></tr><tr><td>Occur in ligaments</td><td>Affects muscles and tendons</td></tr><tr><td>result from a shock force that displaces or damages a joint</td><td>occur from an overuse of a muscle or tendon</td></tr><tr><td>most commonly occur at the ankle, knee, wrist joints, thumbs</td><td>most common in the hamstring, lower back, neck, and shoulders</td></tr><tr><td>can cause severe pain, discoloration, and inflammation</td><td>can cause pain, inflammation, muscle spasms and weakness.</td></tr></table> (or any other 2 relevant point)	Sprain	Strain	Occur in ligaments	Affects muscles and tendons	result from a shock force that displaces or damages a joint	occur from an overuse of a muscle or tendon	most commonly occur at the ankle, knee, wrist joints, thumbs	most common in the hamstring, lower back, neck, and shoulders	can cause severe pain, discoloration, and inflammation	can cause pain, inflammation, muscle spasms and weakness.	1+1 2
Sprain	Strain											
Occur in ligaments	Affects muscles and tendons											
result from a shock force that displaces or damages a joint	occur from an overuse of a muscle or tendon											
most commonly occur at the ankle, knee, wrist joints, thumbs	most common in the hamstring, lower back, neck, and shoulders											
can cause severe pain, discoloration, and inflammation	can cause pain, inflammation, muscle spasms and weakness.											
6. Ans.	Distinguish between hostile aggression and instrumental aggression. <table><tr><th>Hostile Aggression</th><th>Instrumental aggression</th></tr><tr><td>Violent and angry behaviour</td><td>To gain advantage without violence</td></tr><tr><td>Primary aim to harm other</td><td>Primary aim to take advantage while tackling</td></tr><tr><td>Planned and reactionary</td><td>Not planned</td></tr><tr><td>Hitting opponent in football to restrict him</td><td>Elbowing opponent while tackling in football</td></tr></table> (any two)	Hostile Aggression	Instrumental aggression	Violent and angry behaviour	To gain advantage without violence	Primary aim to harm other	Primary aim to take advantage while tackling	Planned and reactionary	Not planned	Hitting opponent in football to restrict him	Elbowing opponent while tackling in football	1+1 2
Hostile Aggression	Instrumental aggression											
Violent and angry behaviour	To gain advantage without violence											
Primary aim to harm other	Primary aim to take advantage while tackling											
Planned and reactionary	Not planned											
Hitting opponent in football to restrict him	Elbowing opponent while tackling in football											
7. Ans.	Describe any two types of endurance. <table><tr><td>According to the nature of activity</td><td>According to duration of activity</td></tr><tr><td>1. Basic endurance</td><td>1. Speed endurance</td></tr><tr><td>2. General endurance</td><td>2. Short term endurance</td></tr><tr><td>3. Specific endurance</td><td>3. Medium term endurance</td></tr><tr><td></td><td>4. long term endurance</td></tr></table> (any two)	According to the nature of activity	According to duration of activity	1. Basic endurance	1. Speed endurance	2. General endurance	2. Short term endurance	3. Specific endurance	3. Medium term endurance		4. long term endurance	1+1 2
According to the nature of activity	According to duration of activity											
1. Basic endurance	1. Speed endurance											
2. General endurance	2. Short term endurance											
3. Specific endurance	3. Medium term endurance											
	4. long term endurance											
8. Ans.	Define disorder and enlist any two types of disorders. A disorder is a problem or illness which affects someone's mind and body and disrupts the daily routine work physically and mentally. (Or any other relevant definition) - OPD/Oppositional defiant disorder - SPD/Sensory processing disorder - ASD/Autism spectrum disorder - ADHD/Attention deficit hyperactive disorder - OCD/Obsessive compulsive disorder (any two)	1+½x2 2										

9.	Define speed and mention the methods to improve it.	
Ans.	“Speed is an ability to do task in minimum possible time” “The prerequisite to do motor action under given condition”. Methods to improve speed 1.Pace Run 2.Acceleration Run (any one definition)	1+ ½ x 2
	Section -B	2
10.	Hypertension may be prevented by practising Tadasana and Shavasana. Describe the procedure of both the asanas.	1½ + 1½
Ans.	Tadasana: - Stand erect with feet together, heels and big toes touching each other. - Inhale and raise the hands straight above the head with palms facing each other. - Lift the heels and stretch your body. - Remain in this posture for as long as you can. - Slowly come back to normal position. Shavasana: - Lie down on the back with the hands comfortably away from the body. - Keep distance of one to two feet between the feet with toes pointing outward. - Hands should be comfortably away from the body. - Gently close your eyes, breathe normally - Focus on the flow of the breath. - Try to relax the body by diffusing the tension in each part of the body. - Slowly come back to the normal position.	3
11.	Interpret any six strategies to make physical activities accessible for children with special needs.	
Ans.	- Pre Activity Medical Check-up - Interest - Capability - Modified equipment - Suitable Environment - Modified Rules - Variety in Instruction - Simple to Complex - Involvement of various Body parts - Extra care to avoid Accident (any 6 points)	½x6
		3
12.	Explain any three effects of exercise on the muscular system.	1x3
Ans.	Effects of exercise on the muscular system 1.Muscular hypertrophy 2.Delayed fatigue 3.Strengthening of ligament and tendons 4.Increase in lactic acid tolerance 5.Increase muscle flexibility 6.Increase in size and number of mitochondria 7.Increase in glycogen storage (Explanation of any three points)	3

16. Ans.	Classify bone injuries. Explain preventive measures to avoid sports injuries. Classification of Bone injuries - Green stick fracture - Comminuted fracture - Impacted fracture - Transverse fracture - Oblique fracture - Stress fracture (Any two and explanation of any one) Preventive measures - warming up - Appropriate conditioning - Protective gears - Right techniques - Knowledge of sports skills - Nutrition - Proper sports facility - Avoid overtraining - Obeying the sports rule - Proper cooling down (any 6 relevant points)	1+ (6x½)
17. Ans.	Define personality. Describe endomorph and mesomorph in detail. Personality: Personality is the sum total of the actual or potential behaviour pattern of the organism Personality is the integrated organisation of all cognitive, conative, affective and physical characteristics that are imposed on individuals and their uniqueness. Endomorph: People who are plump, fatty and have soft bodies come under this category. Such people are fond of eating, lazy, slow in action, sociable and compassionate. Mesomorph: People who have well developed and athletic body. Such people are energetic, dominating and are fond of taking part in adventurous sports.	1+1½+ 1½
18. Ans.	Define strength and explain any two methods to develop it. The ability of muscles to overcome resistance is called strength. (OR) Strength is the force generated by the muscles of body so that person is able to do work (any one definition) Methods to develop strength: - Isometric exercise - Isotonic exercise - Isokinetic exercise (Explanation of any two methods)	1+1½+ 1½
